

TRACKING A PANDEMIC

**World Health
Organization**

TRACKING A CONTINENT WORTH OF DATA MADE MANAGEABLE!

THE CHALLENGE:

Tracking COVID-19 vaccine data across Europe presents many challenges when it comes to data, with large amounts of data taking multiple forms.

THE PROJECT:

JR were approached to maintain and streamline the process, optimising it such that ever changing data structure causes no issues.

THE RESULT:

JR are providing ongoing support and maintenance, and have implemented workflows to reduce downtime and automate previously manual tasks.
